

Articulate Rise Introduction

As a participant of the 1 day Articulate Rise Introduction Workshop, you will learn fundamental principles of Rise 360, including creating a course framework with sections, and inserting content blocks with text, images, and captions. You will add quizzes, adjust course settings, and learn to share and publish a project.

This workshop assumes no previous knowledge of using Rise. Therefore, it is designed mainly for beginners. However, the workshop will also be of great help to people who are currently attempting to use the software and those with limited exposure.

Course Details

Skill Level:	Beginner
