

Microsoft Access Introduction

Participants on this Microsoft Access Introduction 2 day course will gain an understanding of the fundamental principles of Access, including relational database design principles, navigating Access and creating Tables, Forms, Queries and Reports. You will be given a solid foundation of skills upon which to build.

The course assumes no prior knowledge of Access, however, people with limited exposure to the software or if you are using databases built by others you will also benefit from this course.

Course Details

Skill Level:	Beginner
Duration:	Two Day
Time:	9:00am – 4:00pm (approx)
Class Size:	6 students (at Keystroke) 10 students (Your Office)
