

Microsoft Excel PivotTables

Participants on this Microsoft Excel – Pivot Tables half day course will gain hands-on experience and insights into the fundamental aspects of Pivot Tables, including preparing your spreadsheet and working with various Pivot Table options, all without the need to be away from the office for a whole day.

The course assumes a working knowledge of Excel, however, people with limited exposure to the software and those who are entering data into spreadsheets created by others will also benefit from attending this course.

Course Details

Skill Level: **Intermediate**

Duration: **Half Day**
